## **Networked Offers Cluster Membership in Texas**

### **Direct Access Insurance Services Expands Footprint**

MAR 14, 2017, (GRASS VALLEY, CA) – Direct Access Insurance Services (DAIS) will now offer its cluster membership to independent P/C agencies in Texas. DAIS is appointing Texan agencies who are looking to improve their market access, revenue and policy servicing resources. Cluster environments provide direct market access, and also the leverage that creates competitive advantages for the member agencies who can potentially increase their earnings through higher commissions rates and more generous profit-sharing opportunities.

“By expanding our footprint into Texas, we can support the growth of more agencies as they compete and earn more on each opportunity through subcoded access to leading carriers,” explains DAIS Executive Vice President, Larry Oslie. “And because the DAIS membership combines production volume, each member has the ability to maximize profit-sharing opportunities they may not receive on their own.”

The current DAIS membership writes more than \$400M in premium annually. Meanwhile, as a subsidiary of Networked Insurance Agents, DAIS offers member agents additional support solutions for business outside the cluster offering.

#### **About Direct Access Insurance Services (DAIS)**

A subsidiary of Networked Insurance Agents LLC, Direct Access Insurance Services is a uniquely designed cluster group of independent P/C agencies writing over \$400M in premium annually. With DAIS, member agencies remain independently-owned while belonging to a membership organization that provides valuable service solutions and profit-sharing opportunities. Members may utilize over 50 top markets and additional support from over 100 insurance service professionals for new account marketing & placement, processing, accounting & billing, and renewal remarketing. With offices in Northern and Southern California, our support staff serves members across the West. To learn more about DAIS, visit [www.directaccessins.com](http://www.directaccessins.com) or call 844.513.5990.
